USER GUIDE

Thank you for choosing Voltswitch GPS products and using our recommended installation instructions.

1 You are receiving this brochure because you are enrolled in the Voltswitch Theft Protection Program.

2 Next steps: You will receive a welcome email from the Voltswitch System with your account credentials (username and password).

3 If you do not find the email in your inbox, please check your spam folder as it might have landed there.

4 Use the provided credentials to login on the Voltswitch Mobile App. (Android / iOS)

5 You will receive a UPS tracking number with information about the package containing the tracking device.

6 If you need assistance with activation, feel free to reach out to us. You can contact us via email at support@voltswitchgps.com or call our toll-free number at 800-436-0868. We're here to help!

HOW TO PLACE THE TRACKER

1. Open the app and log in to your account (available on App Store and Google Play)

2. From the main menu, tap the button labeled "GPS Placement How-To."

3. In the prompts that follow, select your car's make and model in the provided fields, then tap **Search** to access the GPS Placement video tailored for your vehicle.

4. Follow the steps shown in the video to securely place the Voltswitch GPS tracker in your vehicle.

GPS PLACEMENT BEST PRACTICES

Voltswitch recommends placing the device with the logo facing upward. This ensures optimum performance and allows the tracker to acquire strong satellite and cellular signals. Please remember that GPS and cellular signals cannot pass through metal.

HOW TO TRACK YOUR DEVICE ON THE MOBILE APP

1. Open the Voltswitch App

Available on both the App Store and Google Play. Log in to your account.

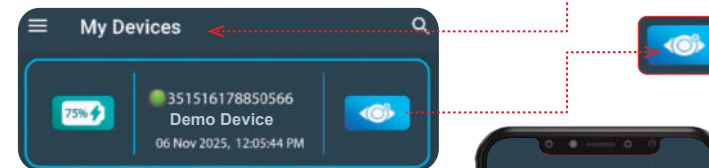

2. Go to 'My Devices'

From the main menu, tap **My Devices'**

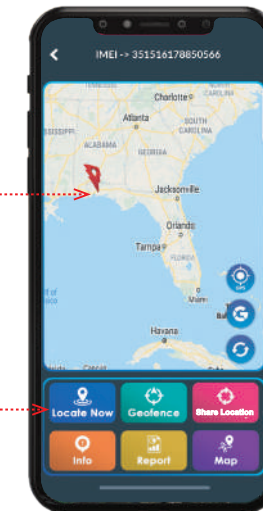

3. Select 'Your Device'

On the Devices page, tap the blue eye icon next to the IMEI number of the tracker you want to view.

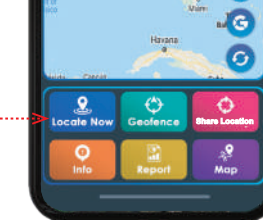

4. View 'your tracker on the map'

You'll be taken to the Map View, where your selected device will appear.

5. Tap 'Locate Now'

From the options at the bottom of the screen, tap the **first icon on the left**, color-coded.

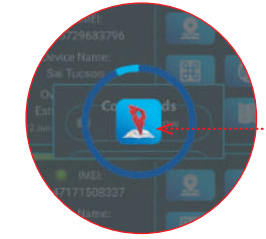

6. Confirm 'Location Request'

In the prompt that appears, select 'Locate Now' to wake up the device and request its current location.

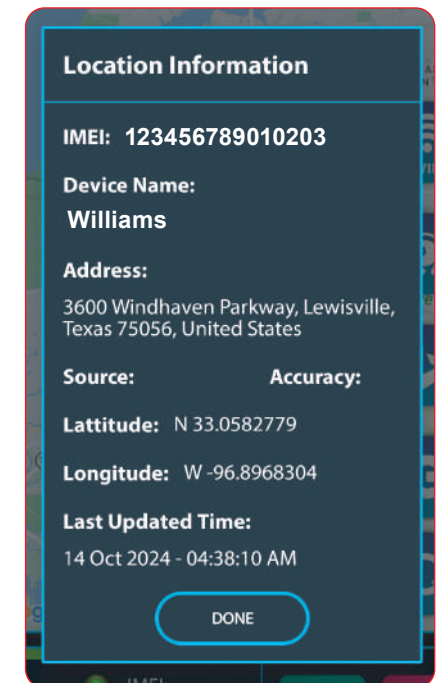

7. Wait for the location to 'Load'

The tracker will search for available channels. A loading screen will appear for **60-90 seconds**.

8. View the 'Updated Location'

Once connected, the tracker will display its latest location on the map.

NOTE

- Uses WIFI and GPS to determine location.
- Patented technology supports on-demand location checks.
- Features an 8000mAH battery for extended life.
- Built-in magnets allow easy attachment to metal surfaces.
